

The Group of 78 Bookshelf

Short reviews of books recommended by our members relevant to the themes of the Group of 78 mandate.

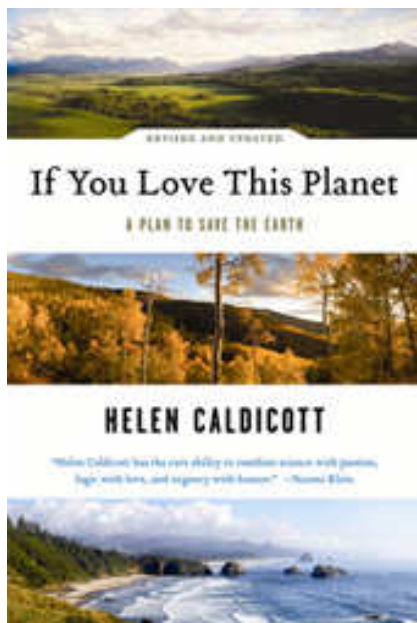

Helen Caldicott, "If You Love This Planet: A Plan to Save the Earth"

W. W. Norton & Company. 2009.

Recommended by Shirley Farlinger July 17, 2011

This is a complete update of her original "If You Love this Planet". Not a word is wasted in her appeal to us to act now on ozone depletion, global warming, trees, toxins, overpopulation (her prescription is unusual), greed and debt and the role of the media. An important contribution is the information on over 100 organizations you can contact. Also her weekly radio show is available from <http://ifyoulovethisplanet.org/>.

She has always been my inspiration and she continues to work hard on behalf of the human race and nature. We can do no less.
